Statement Information

Foreign currency transactions: The issuer uses the exchange rates for foreign currencies published on www.swisscard.ch/exchange-rates for conversion of foreign currencies. The exchange rate is determined by the date when the transaction is processed by the issuer. This processing date may differ from the purchase date. No transactions are processed on certain weekdays and holidays. Moreover, for technical reasons, the exchange rates for foreign currencies from the day prior to the processing date or from the authorization date instead of the exchange rate processing date may be used for certain transactions with Mastercard. A handling fee is applied to foreign currency transactions. This handling fee is shown on your statement as a percentage of the respective transactions. If merchants themselves convert transactions into a card's currency, then they will determine the applicable conversion rates.

Guarantee: The issuer's payment obligation for any credit to card accounts is guaranteed by a bank subject to banking laws. The detailed wording of the default guarantee (specifically the conditions and scope of the guarantee) can be viewed at www.swisscard.ch/default-guarantee

Card acceptance: Transactions are not possible using the issuer's cards in certain countries and regions. You can find the list of countries and regions concerned at www.swisscard.ch/card-acceptance
